

How to convert DMC to CFG by QXDM4

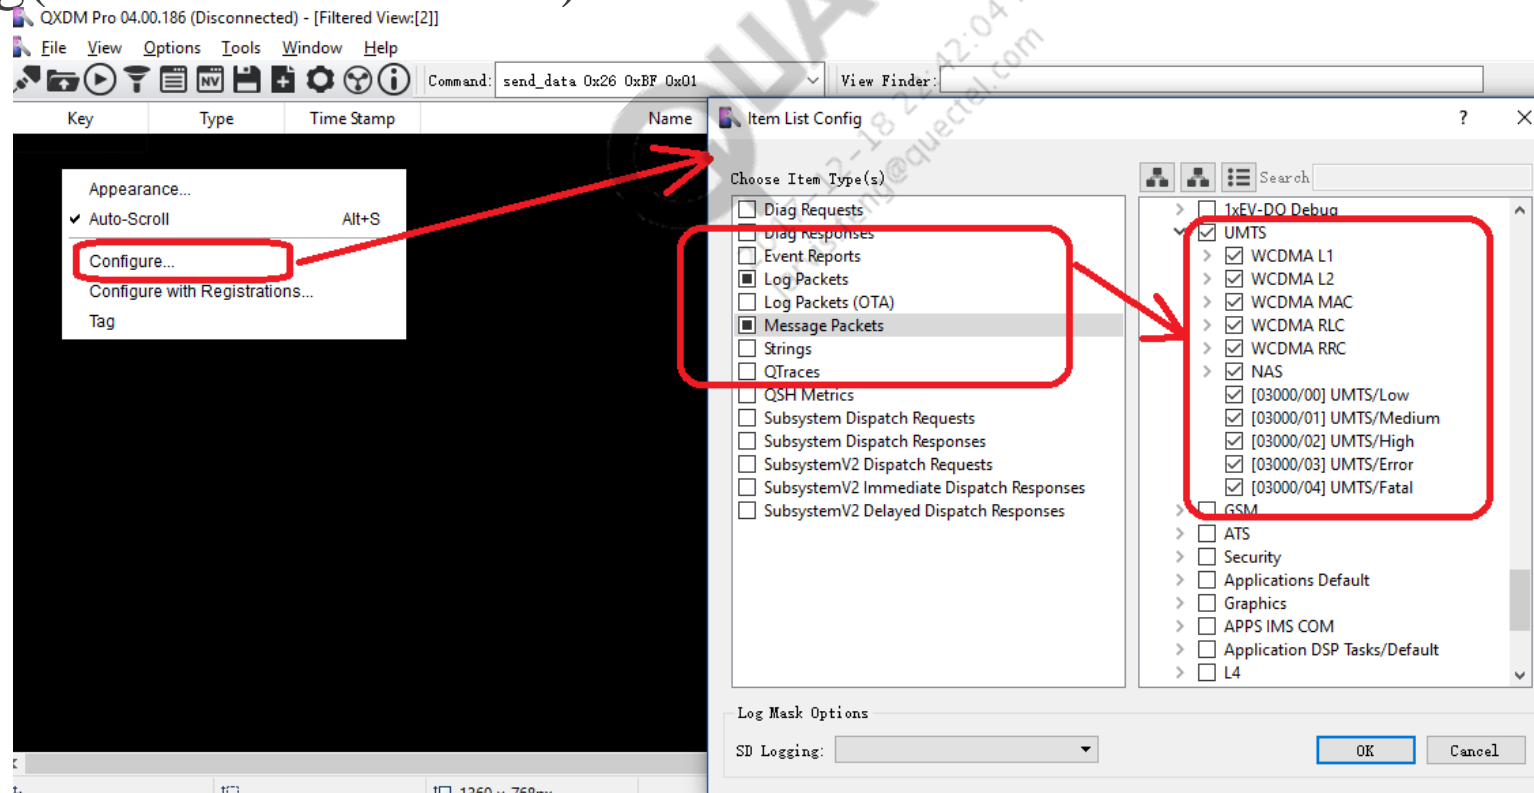

1. Load a configuration file

Open QXDM4 and load a configuration file first

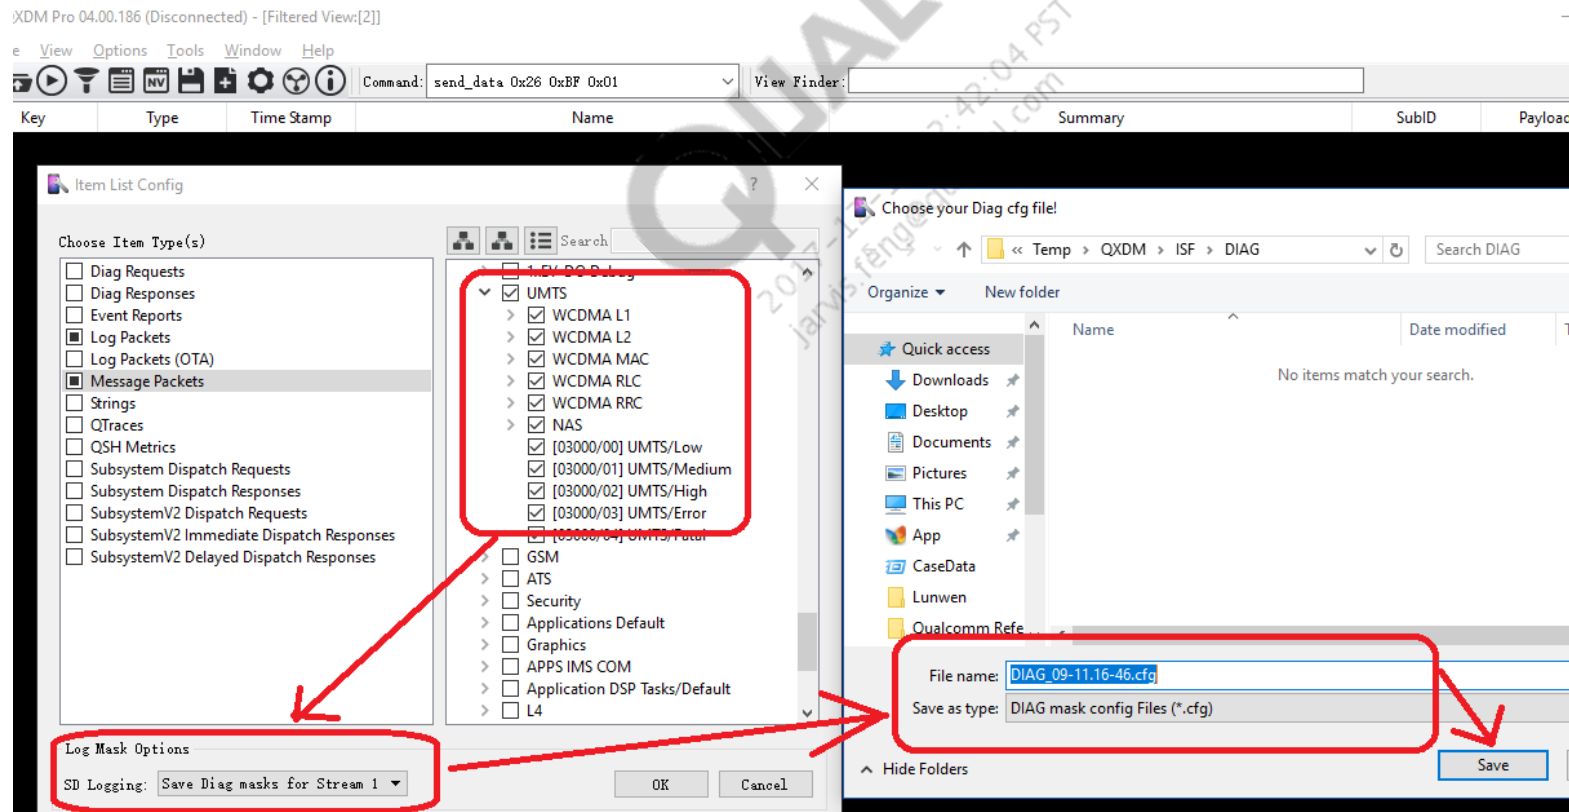

2. select config

Open Filtered view(F12) and make sure that you are able to view required message in window and then right click the filtered view window and select config(as below screenshot)

3. Save and create diag mask config file

- In the SD logging drop-down menu, select Save Diag Masks for stream 1
- Save and create diag make config file(e.g. diag.cfg)

Thank you
